PROFESSIONAL EXPERIENCE

Tesla Head of Strategic Planning and Special Projects — Megapack · Houston, TX

MAR 2026 – PRESENT

- Lead operating strategy and special projects for Tesla Energy's Megapack platform, including the Houston Megafactory ramp and AI adoption across manufacturing.

Tesla Staff Industrial Engineer → Manager, Technical Programs — Energy Manufacturing · Lathrop, CA

AUG 2023 – MAR 2026

- Directed operating strategy across NPI, industrial engineering, and production planning for Megapack; led a 30+ person organization supporting multi-billion-dollar energy storage production.
- Scaled global capacity 3.2× (14.7 to 46.7 GWh) and generated \$156M in incremental annual profit by allocating \$23M across 50+ capacity initiatives.
- Delivered \$260M in annualized savings through a 12-month NPI cost-down across materials, labor, and supplier contracts.
- Unlocked 56% capacity gains and reduced unit cost 26% with Python and Tableau decision models for capacity, labor, automation, and factory-footprint choices.
- Mitigated \$550M in projected tariff exposure by redesigning build plans and establishing FTZ, bonded-warehouse, and product-changeover infrastructure.

Waymo Strategy & BizOps Manager — Engineering · Mountain View, CA

OCT 2022 – MAY 2023

- Installed annual planning, OKRs, resource plans, and quarterly business reviews for Engineering Operations in a safety-critical autonomous-vehicle organization.
- Unified hardware, software, fleet, Product, Legal, and Engineering around shared milestones, surfacing bottlenecks and improving decision velocity.

Apple Senior Strategic Operations Program Manager — iPhone · Cupertino, CA

JUN 2021 – JUN 2022

- Launched iPhone manufacturing in India from site and supplier qualification through line readiness and mass production.
- Enabled 293% year-over-year unit growth (4.3M to 16.9M) and 4× revenue growth (\$2B to \$10B); expanded exports from 6 to 40+ countries.

Tesla Program Manager, Special Projects · Fremont, CA

JUN 2018 – JUN 2021

- Advanced Project Roadrunner from an early 4680 battery-cell pilot to a production-ready platform aligned for Battery Day.
- Led production planning and vehicle operations across Fremont shops, sustaining Model 3 / Model Y rates through demand surges and supply disruptions.
- Designed and launched a \$3.5M/month mobile logistics platform to protect battery and drivetrain flow during factory scale-up.

Amazon Operations Area Manager · Patterson, CA

MAR 2017 – MAY 2018

- Led 100+ associates in a high-volume fulfillment center, applying Lean methods to KPI performance and building the operating foundation that preceded Tesla.

EDUCATION

University at Buffalo B.S. Business Administration, Finance · Cum Laude
